PORTFOLIO MANAGER'S REPORT
THE FAIRHOLME FUND

JULY 2013

“Traditionally the investor has been the man with patience and the courage of his convictions who would buy when the harried or disheartened speculator was selling.”

Benjamin Graham & David Dodd

Mutual fund investing involves risks, including loss of principal. The chart below covers the period from inception of The Fairholme Fund (December 29, 1999) to June 30, 2013. The past performance information quoted below is unaudited and does not guarantee future results. The investment return and principal value of an investment in The Fairholme Fund will fluctuate; an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information quoted below. Performance figures assume reinvestment of dividends and capital gains but do not reflect a 2.00% redemption fee on shares redeemed within 60 days of purchase. Any questions you may have, including most recent month-end performance, can be answered by calling Shareholder Services at 1.866.202.2263. The S&P 500 Index is a broad-based measurement of changes in the stock market, is used for comparative purposes only, and is not meant to be indicative of The Fairholme Fund's performance, asset composition, or volatility. The Fairholme Fund maintains a focused portfolio of investments in a limited number of issuers and does not seek to diversify its investments. This exposes The Fairholme Fund to the risk of unanticipated industry conditions and risks particular to a single company or the securities of a single company. The Fairholme Fund's performance may differ markedly from the performance of the S&P 500 Index in either up or down market trends. The performance of the S&P 500 Index is shown with all dividends reinvested and does not reflect any reduction in performance for the effects of transaction costs or management fees. Investors cannot invest directly in an index. As reflected in its current prospectus, dated April 1, 2013, The Fairholme Fund's expense ratio is 1.00%. Effective as of the close of business on February 28, 2013, the sale of shares of The Fairholme Fund has been suspended to new investors, subject to certain exceptions.

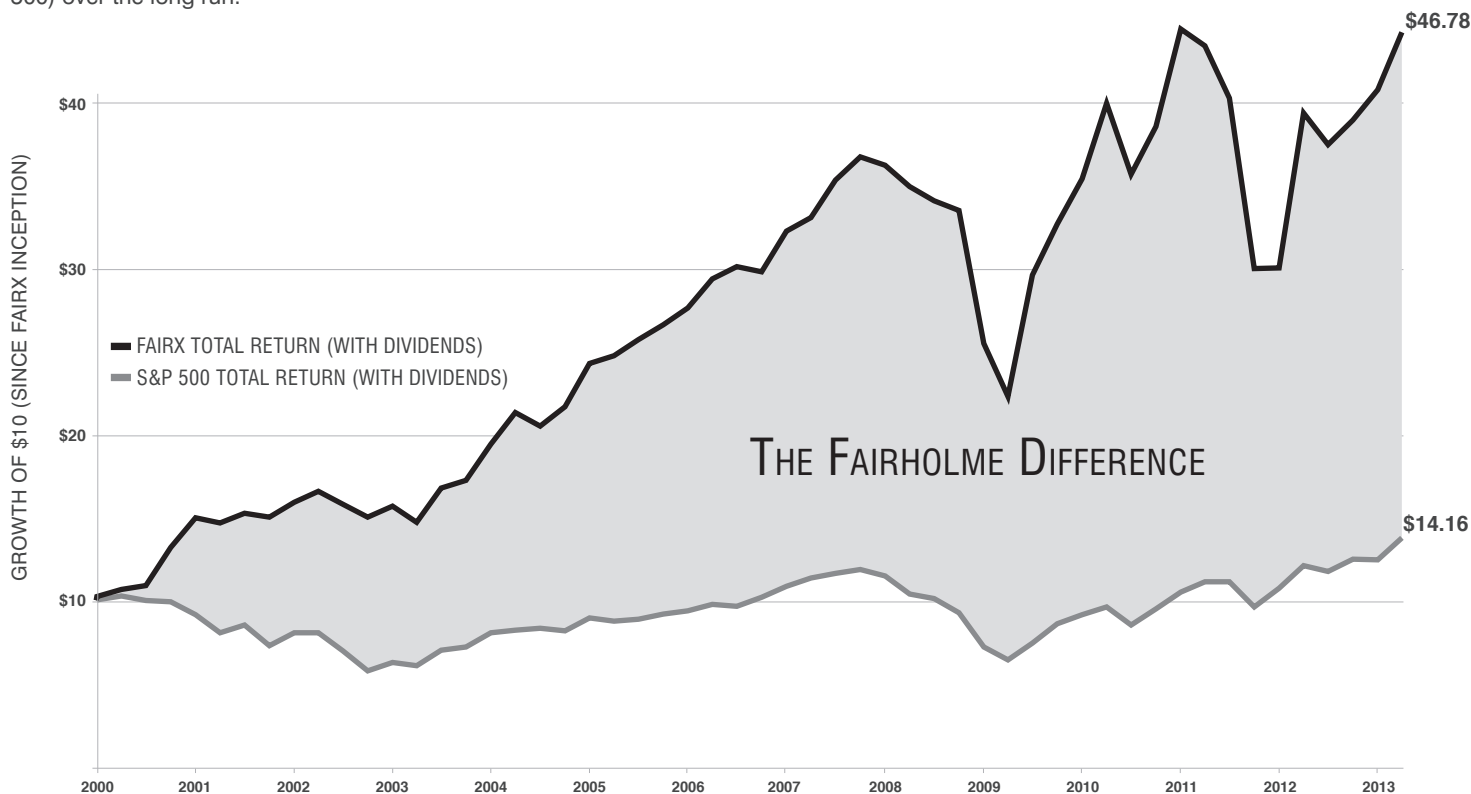

July 29, 2013

To the Shareholders and the Directors of The Fairholme Fund:

The Fairholme Fund (the "Fund" or "FAIRX") gained 15.08% versus 13.82% for the S&P 500 Index (the "S&P 500") in the first six months of this year. The following table compares the Fund's unaudited performance (after expenses) with that of the S&P 500, with dividends and distributions reinvested, for the period ended June 30, 2013.

	<u>One Year</u>	<u>Five Years</u>	<u>Ten Years</u>	<u>Since Inception (12/29/1999)</u>
Cumulative:				
Fund	25.32%	37.64%	179.70%	367.77%
S&P 500	20.60%	40.33%	102.25%	41.59%
Annualized:				
Fund	25.32%	6.60%	10.83%	12.10%
S&P 500	20.60%	7.01%	7.30%	2.61%

At June 30, 2013, the value of a \$10.00 investment in the Fund at its inception was worth \$46.78 (calculated by assuming reinvestment of distributions into additional fund shares) compared to \$14.16 for the S&P 500. FAIRX returned almost nine times more than the S&P 500 on a \$10.00 investment. This difference, more than anything, demonstrates how the Fund has outperformed the market (as represented by the S&P 500) over the long run.

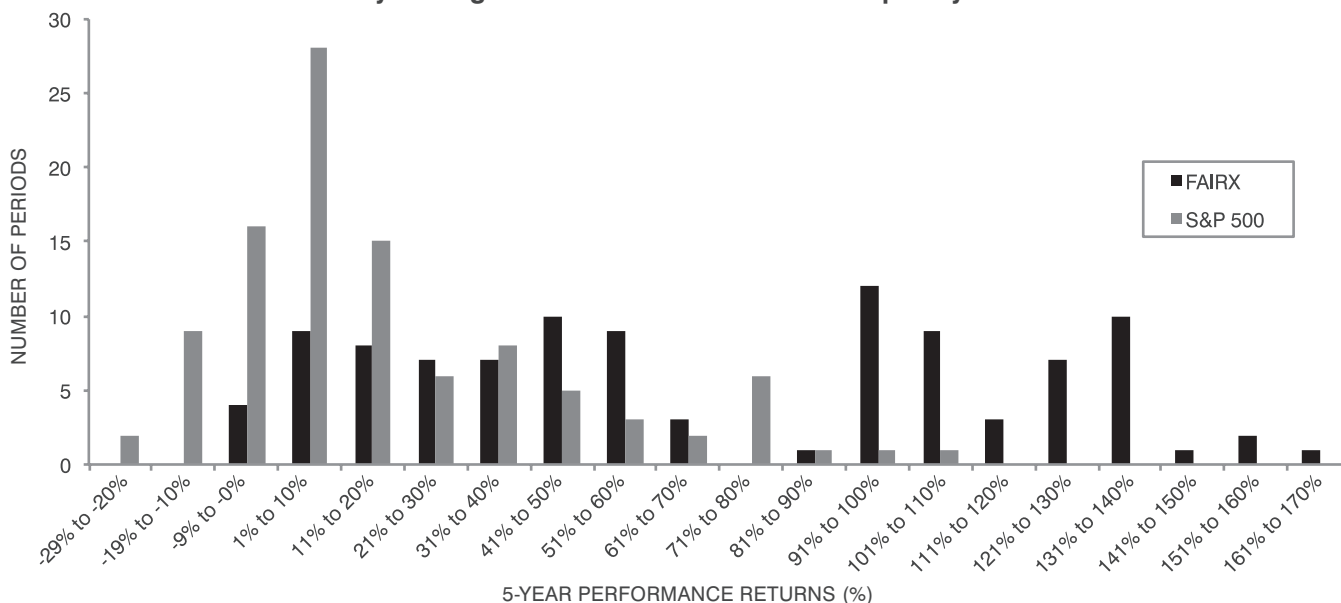

The Fund's average rolling 5-year return was 68.56% versus 16.84% for the S&P 500. The Fund has outperformed the S&P 500 in 94 of 103 5-year periods, calculated after each month's end. The Fund's worst 5-year-period return was (6.89)% versus (29.05)% for the S&P 500. In its best 5-year period, the Fund's return was 163.08% versus the S&P 500's best return of 105.13%.

Fund's Rolling 5-Year-Period Returns*

	FAIRX	S&P 500	Relative Advantage
Best	+163.08% (3/2000 - 2/2005)	+105.13% (10/2002 - 9/2007)	+57.95%
Worst	(6.89)% (1/2007 - 12/2011)	(29.05)% (3/2004 - 2/2009)	+22.16%
Average	+68.56%	+16.84%	+51.72%

The advantages of our long-term focused investment approach are most evident when evaluating our performance over any 5-year period since the inception of FAIRX in 1999. The Fund has achieved 99 positive 5-year return periods and only 4 negative 5-year return periods, compared with 76 positive 5-year return periods and 27 negative 5-year return periods for the S&P 500.

Monthly Rolling 5-Year FAIRX Performance Frequency Distributions*

Eighty-five percent of net assets are invested in AIG, Bank of America, and others damaged by our country's residential real estate bubble. We bought when most thought them dead. Clearly, they were not and we helped prove the point. Our initial investments reaffirmed a deeply held – and historically profitable – belief that it doesn't pay to bet against America.

The Fund's latest investments in the recovery of homeownership are in the preferred stocks of Fannie Mae and Freddie Mac. Your current mortgage may be backed by Fannie or Freddie – about 60% of new mortgages are. Millions of families depend on them to lower the costs and increase the availability of homeownership. In times of stress, Fannie and Freddie stand to ensure the continued functioning of our housing market. Their twelve thousand employees do yeoman's work helping to preserve a cornerstone of the American dream.

The Fund was able to purchase the preferred stocks of Fannie and Freddie near one-fifth of liquidation values – a significant bargain thanks to market predictions of U.S. Government agencies expropriating their assets. We see them differently. Fannie and Freddie are successful, publicly traded, shareholder-owned companies just like AIG and Bank of America. Shifting political winds can change their futures, but not alter their pasts.

The Fund has filed complaints in the Court of Federal Claims and the U.S. District Court in Washington. In our suits, we seek nothing more than the enforcement of existing contractual rights, which require the payment of dividends to Fannie and Freddie preferred shareholders. Our arguments are based on fundamental principles. In America, property ownership is a sacrosanct freedom, *guaranteed by our Constitution*. In America, we follow the rule of law, not the rule of the crowd. In America, profitable companies honor contracts.

*Represents the percentage returns over a five-year rolling period (calculated after each month's end) since inception through June 30, 2013. Monthly rolling 5-year performance is a period of 60 consecutive months determined on a rolling basis, with a new 60-month period beginning on the first day of each calendar month since the inception of the Fund.

Recent performance is due in good part to our investment in AIG and the teachings of John J. Byrne, the Babe Ruth of insurance. Not a day goes by without hearing his principles, "Underwriting comes first. Maintain a strong balance sheet. Invest for total return. Think like an owner." Jack passed away this year. He will be missed, but not forgotten.

Onward and upward,

A handwritten signature in cursive script, appearing to read "Bruce".

THE FAIRHOLME FUND

FUND PERFORMANCE (Unaudited)
May 31, 2003 — May 31, 2013

The Fairholme Fund (the “Fund”) commenced operations on December 29, 1999. The chart above presents the performance of a \$10,000 investment for ten years to the latest semi-annual period ended May 31, 2013.

The following notes pertain to the chart above as well as to the performance table included in the Management Discussion & Analysis report. **Performance information in this report represents past performance and is not a guarantee of future results. The investment return and principal value of an investment in the Fund will fluctuate, so that an investor’s shares when redeemed may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted within. The performance information does not reflect the taxes an investor would pay on Fund distributions or upon redemption of Fund shares. Any questions you may have, including the most recent month-end performance, can be obtained by calling Shareholder Services at 1-866-202-2263.**

Data for both the S&P 500 Index and the Fund are presented assuming all dividends and distributions have been reinvested and do not reflect any taxes that might have been incurred by a shareholder as a result of Fund distributions. The S&P 500 Index is a widely recognized, unmanaged index of 500 of the largest companies in the United States as measured by market capitalization and does not reflect any investment management fees or transaction expenses, nor the effects of taxes, fees or other charges.

THE FAIRHOLME FUND

MANAGEMENT DISCUSSION & ANALYSIS For the Six Months Ended May 31, 2013

The Fairholme Fund (the “Fund”) shares outstanding and unaudited net asset value per share (“NAV”) at May 31, 2013, the end of the Fund’s second fiscal quarter of 2013, and NAVs at other pertinent dates, were as follows:

<u>05/31/2013</u> <u>Shares</u> <u>Outstanding</u>	<u>05/31/2013</u> <u>NAV</u> <u>(unaudited)</u>	<u>11/30/2012</u> <u>NAV</u> <u>(audited)</u>	<u>05/31/2012</u> <u>NAV</u> <u>(unaudited)</u>
217,146,508	\$37.83	\$29.89	\$26.70

At June 30, 2013, the unaudited NAV of the Fund was \$36.18. Performance figures below are shown for the Fund’s semi-annual period ended May 31, 2013, and do not match calendar year figures for the period ended June 30, 2013, cited in the Portfolio Manager’s report.

<u>Fund Performance</u> <u>to 05/31/2013</u>	<u>Six</u> <u>Months</u>	<u>One</u> <u>Year</u>	<u>Five</u> <u>Years</u>	<u>Ten</u> <u>Years</u>	<u>Since</u> <u>Inception</u> <u>12/29/1999</u>
Cumulative:					
Fund	26.56%	41.69%	28.64%	196.87%	389.11%
S&P 500	16.43%	27.28%	30.24%	107.62%	43.51%
Annualized:					
Fund		41.69%	5.17%	11.50%	12.55%
S&P 500		27.28%	5.43%	7.58%	2.73%

For the six months ended May 31, 2013, the Fund outperformed the S&P 500 Index (“S&P 500”) by 10.13 percentage points while over the last year the Fund outperformed the S&P 500 by 14.41 percentage points. From inception, the Fund outperformed the S&P 500 by 9.82 percentage points per annum or, on a cumulative basis, 345.60 percentage points over thirteen years and five months.

Fairholme Capital Management, L.L.C. (the “Manager”) believes continuing economic recovery contributed to overall performance. However, the fact that securities increase or decline in value does not always indicate that the Manager believes these securities to be more or less or attractive — in fact, the Manager believes that some price increases present selling opportunities and some price declines present buying opportunities. Shareholders are also cautioned that it is possible that some securities mentioned in this discussion may no longer be held by the Fund subsequent to the end of the fiscal period and that the Fund may have made significant new purchases that are not yet required to be disclosed. It is the Fund’s general policy not to disclose portfolio holdings other than when required by relevant law or regulation. Portfolio holdings are subject to change without notice.

Not all Fund portfolio dispositions or additions are material, and, while the Fund and the Manager have long-term objectives, it is possible that a security sold or purchased in one period will be purchased or sold in a subsequent period. Generally, the Manager determines to buy and sell based on its estimates of the absolute and relative intrinsic values and fundamental dynamics of a particular security and its issuer and its industry. However, certain strategies of the Manager in carrying out Fund policies may result in shorter holding periods.

In the opinion of the Manager, performance over shorter periods is likely to be less meaningful than over longer periods. Investors are cautioned not to rely on short-term results. Further, shareholders should note that the S&P 500 is an unmanaged index incurring no fees, expenses, or tax effects and is shown solely to compare Fund performance to that of an unmanaged and diversified index of U.S. publicly traded corporation common stock.

The Manager invests Fund assets in securities to the extent it finds reasonable investment opportunities in accordance with its Prospectus and may invest a significant portion of Fund assets in liquid, low-risk securities or cash. The Manager views liquidity as a strategic advantage. At May 31, 2013, cash and cash equivalents (consisting

THE FAIRHOLME FUND

MANAGEMENT DISCUSSION & ANALYSIS (continued) For the Six Months Ended May 31, 2013

of cash, commercial paper, deposit accounts, U.S. Treasury Bills, and money-market funds) represented 9.02% of total assets. Since inception, the Fund has held liquid, low-risk securities or cash for periods without, in the Manager's view, negatively influencing performance, although there is no guarantee that future performance will not be negatively affected by Fund liquidity.

The Fund is considered to be "non-diversified" under the Investment Company Act of 1940. The Fund can invest a greater percentage of assets in fewer securities than a diversified fund and may invest a significant portion of cash and liquid assets in one or more higher risk securities at any time, particularly in situations where markets are weak or a particular security declines sharply. The Fund may also have a greater percentage of assets invested in a particular industry than a diversified fund, exposing the Fund to the risk of an unanticipated industry condition as well as risks specific to a single company or security. The following charts show the top holdings by issuer and sector in descending order of net assets as of May 31, 2013.

The Fairholme Fund Top Ten Holdings by Issuer* (% of Net Assets)	
American International Group, Inc.	48.2%

	<u>98.4%</u>

* Excludes cash, U.S. Treasury Bills, and money market funds.

** Includes cash, U.S. Treasury Bills, and money market funds.

The Manager views the ability to focus on fewer investments than a diversified fund as a strategic advantage. However, such a strategy may negatively influence short-term performance, and there is no guarantee that long-term performance will not be negatively affected.

The Fund may invest in non-U.S. securities and securities of corporations domiciled outside of the United States which may expose the Fund to adverse changes resulting from foreign currency fluctuations or other potential risks as described in the Fund's Statement of Additional Information.

The Fund's Officers, the Board of Directors (the "Board" or the "Directors"), and Manager are aware that large cash inflows or outflows may adversely affect Fund performance. Such flows are monitored and appropriate actions are contemplated for when such flows could negatively impact performance.

Since inception, the Fund has been advised by the Manager. Mr. Berkowitz, both the Managing Member of the Manager and Chairman of the Fund's Board, continues to have a significant personal stake in the Fund, holding an aggregate 10,487,264 shares at May 31, 2013. While there is no requirement that the Manager own shares of the Fund, such holdings are believed to help align shareholder interests.

THE FAIRHOLME FUND

MANAGEMENT DISCUSSION & ANALYSIS (continued)
For the Six Months Ended May 31, 2013

The Board, including the Independent Directors, continues to believe that it is in the best interest of the Fund to have Mr. Berkowitz serve as Chairman of the Board given: his long-term relative performance; his experience, commitment, and significant personal investment in the Fund; the present constitution of Directors and policies; and current rules and regulations. Certain Directors and Officers of the Fund are also Officers of the Manager. Nevertheless, at May 31, 2013, a majority of Directors were independent of the Manager, no stock option or restricted stock plans exist, Officers received no direct compensation from the Fund, and Directors affiliated with the Manager received no compensation for being Directors.

For more complete information about the Fund, or to obtain a current Prospectus, please visit www.fairholmefunds.com or call Shareholder Services at 1-866-202-2263.

THE FAIRHOLME FUND

EXPENSE EXAMPLE

For the Six Month Period from December 1, 2012
through May 31, 2013 (unaudited)

As a Fund shareholder, you incur direct and indirect costs. Direct costs include, but are not limited to, transaction fees at some broker-dealers, custodial fees for retirement accounts, redemption fees on Fund shares redeemed within 60 days of purchase, and wire transfer fees. You also incur indirect, ongoing costs that include, but are not limited to, management fees paid to the Manager.

The following example is intended to help you understand your indirect costs (also referred to as “ongoing costs” and measured in dollars) when investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. This example is based on an investment of \$1,000 invested in the Fund, at December 1, 2012, and held for the entire six month period ending May 31, 2013.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you had invested at the beginning of the period, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading “Expenses Paid During the Period” to estimate the expenses you paid on your Fund holdings during this period.

Hypothetical Example for Comparison Purposes

The second line of the table provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return for the period presented. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses that you paid for the period presented. However, you may use this information to compare ongoing costs of investing in the Fund with the ongoing costs of investing in other funds. To do so, compare this 5% hypothetical example with the 5% examples that appear in the shareholder reports of other funds.

Please note that the column titled “Expenses Paid During the Period” in the table below is meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees (if any), or other direct costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these direct costs were included, your total costs would be higher.

Fund	Beginning Account Value December 1, 2012	Ending Account Value May 31, 2013	Annualized Expense Ratio	Expenses Paid During the Period December 1, 2012 Through May 31, 2013*
Actual	\$1,000.00	\$1,265.60	1.01%	\$5.70
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.90	1.01%	\$5.09

* Expenses are equal to the Fund’s annualized expense ratio, multiplied by the average account value over the period, multiplied by 182 days/365 days (to reflect the one-half year period).

(1) Based on average shares outstanding.

(2) Redemption fees per share, which were initially reported as a component of net realized and unrealized gain (loss) on investments per share, were reclassified to conform to the current presentation and are separately reported.

(3) Redemption fees represent less than \$0.01.

(4) Not Annualized.

(5) 0.01% is attributable to interest expense incurred outside of the 1.00% management fee.

(6) Annualized.

(7) 0.01% is attributable to legal expenses incurred outside of the 1.00% management fee.

(8) 0.01% is attributable to shareholder meeting expenses incurred outside of the 1.00% management fee.

The accompanying notes are an integral part of the financial statements.

Note 1. Organization

Fairholme Funds, Inc. (the “Company”), a Maryland corporation, is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Company’s Articles of Incorporation permit the Board of Directors of the Company (the “Board” or the “Directors”) to issue 1,100,000,000 shares of common stock at \$.0001 par value. 700,000,000 shares have been allocated to The Fairholme Fund (the “Fund”). The Fund is a non-diversified fund. The Fund may have a greater percentage of its assets invested in particular securities than a diversified fund, exposing the Fund to the risk of unanticipated industry conditions as well as risks specific to a single company or the securities of a single company. The Board has the power to designate one or more separate and distinct series and/or classes of shares of common stock and to classify or reclassify any unissued shares with respect to such series.

The Fund’s investment objective is to provide long-term growth of capital. Under normal circumstances, the Fund seeks to achieve its investment objective by investing in a focused portfolio of equity and fixed-income securities. The proportion of the Fund’s assets invested in each type of asset class will vary from time to time based upon Fairholme Capital Management, L.L.C.’s (the “Manager”) assessment of general market and economic conditions. The Fund may invest in, and may shift frequently among, the asset classes and market sectors. The equity securities in which the Fund may invest include common and preferred stock (including convertible preferred stock), partnership interests, business trust shares, interests in real estate investment trusts (“REITs”), rights and warrants to subscribe for the purchase of equity securities, and depository receipts. The Fund may invest in equity securities without regard to the jurisdictions in which the issuers of the securities are organized or situated and without regard to the market capitalizations or sectors of such issuers. The fixed-income securities in which the Fund may invest include U.S. corporate debt securities, non-U.S. corporate debt securities, bank debt (including bank loans and participations), U.S. government and agency debt securities, short-term debt obligations of foreign governments, and foreign money market instruments. Except for its investments in short-term debt obligations of foreign governments, the Fund may invest in fixed-income securities regardless of maturity or the rating of the issuer of the security. The Fund may also invest in “special situations” to achieve its objective. “Special situation” investments may include equity securities or fixed-income securities, such as corporate debt, which may be in a distressed position as a result of economic or company specific developments. Although the Fund normally holds a focused portfolio of equity and fixed-income securities, the Fund is not required to be fully invested in such securities and may maintain a significant portion of its total assets in cash and securities generally considered to be cash equivalents. The Manager serves as investment adviser to the Fund.

There is no guarantee that the Fund will meet its objective.

Note 2. Significant Accounting Policies

The Fund’s investments are reported at fair value as defined by Accounting Principles Generally Accepted in the United States of America (“U.S. GAAP”). The Fund calculates its net asset value as soon as practicable following the close of regular trading on the New York Stock Exchange (currently 4:00 p.m. Eastern Time) on each day the New York Stock Exchange is open.

A description of the valuation techniques applied to the Fund’s securities measured at fair value on a recurring basis follows:

Security Valuation:

Equity securities (common and preferred stocks): Securities traded on a national securities exchange or reported on the NASDAQ national market are generally valued at the official closing price, or at the last reported sale price on the exchange or market on which the securities are traded, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price. To the extent these securities are actively traded and valuation adjustments are not applied, they are classified in Level 1 of the fair value hierarchy. The Manager may also employ other valuation methods which the Manager believes would provide a more accurate indication of fair value. In these situations, if the inputs are observable, the valuation will be classified in Level 2 of the fair value hierarchy, otherwise they would be classified in Level 3.

Fixed-income securities (U.S. government obligations, corporate bonds, convertible bonds, and asset backed securities): The fair value of fixed-income securities is estimated using market quotations when readily available, but may also be estimated by various methods when no such market quotations exist and when the Manager believes these other methods reflect the fair value of such securities. These methods may consider recently executed transactions in securities of the issuer or comparable issuers and market price valuations from independent pricing services and/or brokers (where observable). Where the Manager deems it appropriate to do so (such as when independent prices are unavailable or not deemed to be representative of fair value) fixed income securities will be fair valued in good faith. As of May 31, 2013, fixed income securities are valued by the Manager utilizing the average bid of independent broker/dealer quotes and/or the average of valuations from independent pricing services. Although fixed-income securities are classified in Level 2 of the fair value hierarchy at May 31, 2013, in instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they would be classified in Level 3.

Open-end mutual funds: Investments in open-end mutual funds including money market funds are valued at their closing net asset value each business day and are classified in Level 1 of the fair value hierarchy.

Short-term securities: Investments in securities with maturities of less than sixty days when acquired or long-term securities, which are within sixty days of maturity are estimated by using the amortized cost method of valuation, which the Manager and the Board have determined will approximate fair value. To the extent the inputs are observable and timely, the values would be classified in Level 2 of the fair value hierarchy.

Restricted securities: Depending on the relative significance of valuation inputs, these instruments may be classified in any level of the fair value hierarchy.

Warrants: The Fund may invest in warrants, which may be acquired either through a direct purchase, included as part of a private placement, or pursuant to corporate actions. Warrants entitle, but do not obligate, the holder to buy equity securities at a specific price for a specific period of time. Warrants may be considered more speculative than certain other types of investments in that they do not entitle a holder to dividends or voting rights with respect to the underlying securities that may be purchased nor do they represent any rights in the assets of the issuing company. Also, the value of a warrant does not necessarily change with the value of the underlying securities and a warrant ceases to have value if it is not exercised prior to its expiration date. Warrants traded on a security exchange are valued at the official closing price on the valuation date and are classified as Level 1 of the fair value hierarchy. Over the counter (OTC) warrants are valued using simulation models utilizing market value of the underlying security, expiration date of the warrants, volatility of the underlying security, strike price of the warrants, risk-free interest rate at the valuation date, and are classified as Level 2 or Level 3 of the fair value hierarchy depending on the observability of the inputs used.

Short Sales: The Fund may sell securities short. A short sale is a transaction in which the Fund sells securities it does not own in anticipation of a decline in the market price of the securities. To deliver the securities to the buyer, the Fund must arrange through a broker to borrow the securities and, in so doing, the Fund becomes obligated to replace the securities borrowed at their market price at the time of replacement, whatever that price may be. The Fund will make a profit or incur a loss as a result of a short sale depending on whether the price of the securities decreases or increases between the date of the short sale and the date on which the Fund purchases the security to replace the borrowed securities that have been sold. The amount of any loss would be increased (and any gain decreased) by any premium or interest the Fund is required to pay in connection with a short sale.

The Fund uses several recognized industry third-party pricing services (TPPS) - approved by the Board and unaffiliated with the Manager to value some of its securities. It also uses other independent market trade data sources (such as TRACE, the FINRA developed mandatory reporting of over-the-counter secondary market transactions), as well as broker quotes provided by market makers. The data within these feeds is ultimately sourced from major stock exchanges and trading systems where these securities trade. If a price obtained from the pricing source is deemed unreliable, it may be discarded and/or challenged. In these cases the pricing decision is made by reference to the reliable market data from the other market data sources.

THE FAIRHOLME FUND

NOTES TO FINANCIAL STATEMENTS (continued)
May 31, 2013 (unaudited)

The Manager may determine the fair valuation of a security when market quotations are insufficient or not readily available, when securities are determined to be illiquid or restricted, or when in the judgment of the Manager the prices or values available do not represent the fair value of the instrument. Factors which may cause the Manager to make such a judgment include the following: (a) only a bid price or an asked price is available; (b) the spread between bid and asked prices is substantial; (c) the liquidity of the securities; (d) the frequency of sales; (e) the thinness of the market; (f) the size of reported trades; (g) actions of the securities markets, such as the suspension or limitation of trading; and (h) bona fide bids or offers made to the Manager by independent third parties. Among the factors to be considered to fair value a security are recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Manager reports quarterly to the Board the results of the application of fair valuation policies and procedures.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, quoted prices in inactive markets for identical securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Manager's determination as to the fair value of investments).

The inputs or methodology used for valuing investments are not necessarily an indication of the level of risk associated with investing in those investments. The summary of the Fund's investments by inputs used to value the Fund's investments as of May 31, 2013 is as follows:

	Valuation Inputs		
	Level 1 – Quoted Prices	Level 2 – Other Significant Observable Inputs	Total Fair Value at 05/31/2013
ASSETS:			
INVESTMENTS (Fair Value):			
Domestic Equity Securities*	\$6,365,503,486	—	\$6,365,503,486
Foreign Equity Securities*	41,518,074	—	41,518,074
Domestic Preferred Equity Securities*	535,135,986	—	535,135,986
Warrants			
Multi-Line Insurance	397,228,032	—	397,228,032
U.S. Government Obligations	—	\$619,771,310	619,771,310
Money Market Funds	122,930,217	—	122,930,217
Miscellaneous Investments	25,899,204	—	25,899,204
TOTAL INVESTMENTS	<u>\$7,488,214,999</u>	<u>\$619,771,310</u>	<u>\$8,107,986,309</u>

* Industry classifications for these categories are detailed in the Schedule of Investments.

During the six months ended May 31, 2013, equity investments of The St. Joe Co. were transferred from Level 2 to Level 1 as the application of a discount to the official closing price on the day of valuation no longer applied. The beginning of period value of the securities that transferred from Level 2 to Level 1 during this period amounted to \$479,818,660. The Fund's policy is to recognize transfers among Levels as of the beginning of the reporting period.

There were no level 3 investments at May 31, 2013 or fiscal year ended November 30, 2012.

Recent Accounting Standards: In December 2011, the Financial Accounting Standards Board (the “FASB”) issued guidance that will expand current disclosure requirements on the offsetting of certain assets and liabilities. The new disclosures will be required for investments and derivative financial instruments subject to master netting or similar agreements which are eligible for offset in the Statements of Assets and Liabilities and will require an entity to disclose both gross and net information about such investments and transactions in the financial statements. In January 2013, the FASB issued guidance that clarifies which investments and transactions are subject to the offsetting disclosure requirements. The scope of the disclosure requirements for offsetting will be limited to derivative instruments, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions. The guidance is effective for financial statements with fiscal years beginning on or after January 1, 2013, and interim periods within those fiscal years. Management is evaluating the impact, if any, of this guidance on the Fund’s financial statement disclosures.

Warrants: The Fund’s investments in warrants as of May 31, 2013, are presented within the Schedule of Investments.

The Fund’s warrant positions during the six months ended May 31, 2013 had an average monthly market value of approximately \$485,523,088.

As of May 31, 2013, the value of warrants with equity risk exposure of \$397,228,032 is included with Investments at Fair Value on the Statement of Assets and Liabilities. For the six months ended May 31, 2013, the effect of the net change in unrealized depreciation of warrants with equity risk exposure held of \$466,587,012 is included with the Net Change in Unrealized Appreciation on Investments and Foreign Currency Related Translations on the Statement of Operations.

Dividends and Distributions: The Fund records dividends and distributions to shareholders on the ex-dividend date. The Fund intends to distribute substantially all of its net investment income (if any) as dividends to its shareholders on an annual basis in December. The Fund intends to distribute any net long-term capital gains and any net short-term capital gains at least once a year. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis: (i) fair value of investment securities, assets, and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income, and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions. The Fund does not isolate that portion of gains and losses on investment securities which is due to changes in the foreign exchange rates from that which is due to changes in the market prices of such securities.

Estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Fund to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of both contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Redemption Fee: The Fund assesses a 2% fee on the proceeds of the Fund shares that are redeemed within 60 days of their purchase. The redemption fee is paid to the Fund as applicable, for the benefit of remaining shareholders and is recorded as paid-in capital. The redemption fees retained by the Fund during the six months ended May 31, 2013 and the fiscal year ended November 30, 2012 amounted to \$239,592 and \$555,316, respectively.

Other: The Fund accounts for security transactions on the trade date for financial statement purposes. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date net of foreign taxes withheld where recovery is uncertain and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities using the effective yield method. Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuation in exchange rates. The Fund may invest in countries that require governmental approval for the repatriation of

investment income, capital, or the proceeds of sales of securities by foreign investors. In addition, if there is deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad.

The Fund paid commissions, other brokerage fees, and interest expense during the period.

Note 3. Related Party Transactions

The Manager is a Delaware limited liability company and is registered with the Securities and Exchange Commission as an investment adviser. The Manager's principal business and occupation is to provide investment management and advisory services to individuals, corporations, and other institutions throughout the world. Pursuant to an Investment Management Agreement, the Fund pays a management fee to the Manager for its provision of investment advisory and operating services to the Fund. Subject to applicable waivers or limitations, the management fee is paid at an annual rate equal to 1.00% of the daily average net assets of the Fund. Under the Investment Management Agreement, the Manager is responsible for paying all of the Fund's expenses, including expenses for the following services: transfer agency, fund accounting, fund administration, custody, legal, audit, compliance, directors' fees, call center, fulfillment, travel, insurance, rent, printing, postage, and other office supplies, and excluding commissions, brokerage fees, and other transaction costs, taxes, interest, litigation expenses, and related expenses, and other extraordinary expenses.

The Manager earned \$38,023,947 from the Fund for its services during the six months ended May 31, 2013.

Certain Directors and Officers of the Fund are also Members and Officers of the Manager.

Note 4. Investments

For the six months ended May 31, 2013, aggregated purchases and sales of investment securities other than short-term investments were as follows:

<u>Purchases</u>	<u>Sales</u>
\$889,138,385	\$1,524,802,239

Note 5. Tax Matters

Federal Income Taxes: The Fund intends to qualify each year as a "Regulated Investment Company" under Subchapter M of the Internal Revenue Code of 1986, as amended. By so qualifying, the Fund will not be subject to federal income taxes to the extent that it distributes all of its net investment income and any realized capital gains.

For U.S. federal income tax purposes, the cost of securities owned, gross unrealized appreciation, gross unrealized depreciation, and net unrealized appreciation of investments at May 31, 2013 were as follows:

<u>Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation</u>
\$7,136,890,038	\$1,517,762,947	\$(546,666,676)	\$971,096,271

The difference between book basis and tax basis net unrealized appreciation, if any, is primarily attributable to the tax deferral of losses on wash sales.

The Fund's tax basis capital gains are determined only at the end of each fiscal year. Therefore, the components of distributable earnings will be included in the Annual Report for the fiscal year ended November 30, 2013.

The Manager has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years (current and prior three tax years) and has concluded that there are no uncertain tax positions that require recognition of a tax liability. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations

THE FAIRHOLME FUND

NOTES TO FINANCIAL STATEMENTS (continued)
May 31, 2013 (unaudited)

have not expired (the current year and the prior year) are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 6. Dividends and Distributions to Shareholders

Ordinary income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

The tax character of dividends and distributions paid by the Fund were as follows:

	<u>For the Six Months Ended May 31, 2013</u>	<u>For the Fiscal Year Ended November 30, 2012</u>
Dividends and Distributions paid from:		
Ordinary Income	—	\$213,247,996
Return of Capital	—	<u>63,552,375</u>
	—	<u>\$276,800,371</u>

Note 7. Transactions in Shares of Affiliates

Portfolio companies in which the Fund owns 5% or more of the outstanding voting securities of the issuer are considered affiliates of the Fund. The aggregate fair value of all securities of affiliates held in the Fund as of May 31, 2013 amounted to \$5,132,965,705 representing 62.48% of the Fund's net assets.

Transactions in the Fund during the six months ended May 31, 2013 in which the issuer was an affiliate are as follows:

	<u>November 30, 2012</u>	<u>Gross Additions</u>	<u>Gross Deductions</u>	<u>May 31, 2013</u>		<u>Realized Gain (Loss)</u>	<u>Investment Income</u>
	<u>Shares/ Par Value</u>	<u>Shares/ Par Value</u>	<u>Shares/ Par Value</u>	<u>Shares/ Par Value</u>	<u>Fair Value</u>

^(a) Company was not an "affiliated company" as of November 30, 2012.

^(b) Company is not an "affiliated company" as of May 31, 2013, but remains an investment in the Fund's portfolio. Realized gain or loss is shown for transactions that occurred through the date the Fund no longer owned 5% or more of the outstanding voting securities of the issuer.

^(c) Company is not an "affiliated company" as of May 31, 2013. Affiliated investment income is shown for transactions that occurred through the date the Fund no longer owned 5% or more of the outstanding voting securities of the issuer.

Note 8. Indemnifications

Under the Company's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In the normal course of business the Company or the Fund enters into contracts that contain a variety of representations and customary indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on its experience to date, the Fund expects the risk of loss to be remote.

Additional Information**Proxy Voting Policies, Procedures and Records (unaudited)**

The Company has adopted policies and procedures that provide guidance and set forth parameters for the voting of proxies relating to securities held in the Fund's portfolio. A description of these policies and procedures, and records of how the Fund voted proxies relating to their portfolio securities during the most recent twelve month period ended June 30, 2012, are available to you upon request and free of charge by writing to Fairholme Funds, Inc., c/o BNY Mellon Investment Servicing (US) Inc., P.O. Box 9692, Providence, RI, 02940 or by calling Shareholder Services at 1-866-202-2263 or visiting our website at fairholmefunds.com. They may also be obtained by visiting the Securities and Exchange Commission ("SEC") website at www.sec.gov. The Company shall respond to all shareholder requests for records within three business days of its receipt of such request by first-class mail or other means designed to ensure prompt delivery.

N-Q Filing (unaudited)

The Company files a complete schedule of the Fund's portfolio holdings on Form N-Q for the fiscal quarters ending February 28 (February 29 during leap year) and August 31. The Form N-Q filing must be made within 60 days of the end of the quarter. The Forms N-Q relating to the Fund's portfolio investments are available on the SEC's website at www.sec.gov, or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC (call 1-800-732-0330 for information on the operation of the Public Reference Room).
